

Demonstration of Proposed Features

Date	04 October 2026
Team ID	POCKETSMART-TEAM
Project Name	PocketSmart AI – Smart Budget & Recommendation Assistant using Gemini Models
Maximum Marks	2 Marks

Demo Sequence

Step	Demonstrated Feature	Presenter
1	Open the PocketSmart landing page	Frontend Lead
2	Register a new account and sign in	Backend Lead
3	Show the dashboard with the three planners	Frontend Lead
4	Home planner: enter a budget and requirements, generate the plan	AI Integration Lead
5	Show the breakdown, calculation table, remaining budget and shopping links	AI Integration Lead
6	Party planner: generate a plan for a birthday with catering and decoration	AI Integration Lead
7	Jewelry planner: upload an outfit image and show matching suggestions	AI Integration Lead
8	Open History and reopen an earlier plan	Backend Lead + Frontend Lead
9	Show validation (budget of 0) and the fallback notice	Testing & Documentation Lead
10	Run pytest tests and show 11 passing	Testing & Documentation Lead

Key Demonstration Message

PocketSmart AI does more than ask an AI for ideas: it validates the input, turns the answer into a structured plan with shopping links, never leaves the user empty-handed thanks to the fallback, and keeps each plan in the user's history.
